Ms. Barb Edwards
Elementary Principal
308-665-1928

Where and how to find information should the school close due to a weather event! This is NOT a school closing notice

In anticipation of the need to close school due to winter conditions, the school district will use a variety of methods to inform parents. The school district will post the information on the district website www.cpsrams.org. Also, you can listen to the following media outlets.

- KCSR 610 AM and KBPY 107.7 FM
- KQSK 97.5 FM and KAAQ 105.9 FM

If you have a cell phone the school district will send you a text message. Please make sure that the school district has a current cell phone on file.

If school is open it is the parent's decision to determine if it is safe for their child/children to drive or be transported to school. If a parent decides to have their child/children stay home due to the weather, the school district requests that they call the school to inform the school of their absence. This allows the school to account for all students and their safety. Parents may call the school to release their child/children in order to drive home or be picked up should inclement weather arrive and driving conditions deteriorate.
